

Aruba Instant On AP22 Access Point

Startup Guide

The Aruba AP22 access point delivers high performance concurrent 2.4 GHz and 5 GHz Wi-Fi 6 (802.11ax) functionality with MIMO radios (2x2 in 2.4 GHz, 2x2 in 5 GHz), while also supporting legacy 802.11a/b/g/n/ac wireless services.

Package Contents

- 1 x AP22 access point
- 1 x Mount bracket
- 1 x Ethernet cable

If you have ordered AP22 bundle, the package would also include a power supply unit to power the AP through an electrical power outlet.

Inform your supplier if there are any incorrect, missing, or damaged parts. To return this product, repack this unit and other included materials into the original packaging before returning it to the supplier.

Installation

To install your AP22 access point, refer to the *AP22 Access Point Installation Guide* by scanning the QR code below or visit <https://www.ArubaInstantOn.com/docs>

Regulatory Compliance

An upgrade of the AP software to the latest available version is recommended. This ensures that the AP supports the most up-to-date set of countries and regulatory specifications. Aruba access points are classified as radio transmission devices and are subject to governmental regulation. The network administrator(s) is/are responsible for ensuring that this device operates in accordance with local/regional laws of the host domain. Specifically, access points must use channel assignments appropriate to the location in which the access point will be deployed.

Brazil

Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados.

Canada

This device complies with Industry Canada's license-exempt RSSs.

Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Déclaration d'Industrie Canada

Ce périphérique est conforme aux règlements RSS exempts de licence d'Industrie Canada. L'utilisation de ce périphérique est soumise aux deux conditions suivantes : (1) ce périphérique ne doit pas provoquer d'interférences, et (2) ce périphérique doit accepter toute interférence, y compris les interférences susceptibles de provoquer un dysfonctionnement.

European Union

The Declaration of Conformity made under RED 2014/53/EU is available for viewing at: <https://www.hpe.com/eu/certificates>. Select the document that corresponds to your device's model number as it is indicated on the product label.

Hereby, Hewlett Packard Enterprise Company declares that the radio equipment type [The Regulatory Model Number [RMN] for this device can be found on page 1 of this document] is in compliance with Ukrainian Technical Regulation on Radio Equipment, approved by resolution of the CABINET OF MINISTERS OF UKRAINE dated May 24, 2017, No. 355. The full text of the UA declaration of conformity is available at the following internet address: <https://certificates.ext.hpe.com/public/certificates.html>

United States

This device complies with part 15 of the FCC Rules. Operation is subject to

the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit that is different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

Improper termination of access points installed in the United States configured to a non-US model controller is a violation of the FCC grant of equipment authorization. Any such willful or intentional violation may result in a requirement by the FCC for immediate termination of operation and may be subject to forfeiture (47 CFR 1.80). For additional safety and regulatory information about this product, refer to the *AP22 Access Point Installation Guide*.
