Wireless Presentation Pod-WPP20

Wireless Presentation Pod-WPP30

Remove Protective Shell

Install MeetingBar A30

Mount it on a wall

1. Determine MeetingBar A30 position

The mounting height affects your camera view. The recommended height is 1.1 m above the ground.

NOTE

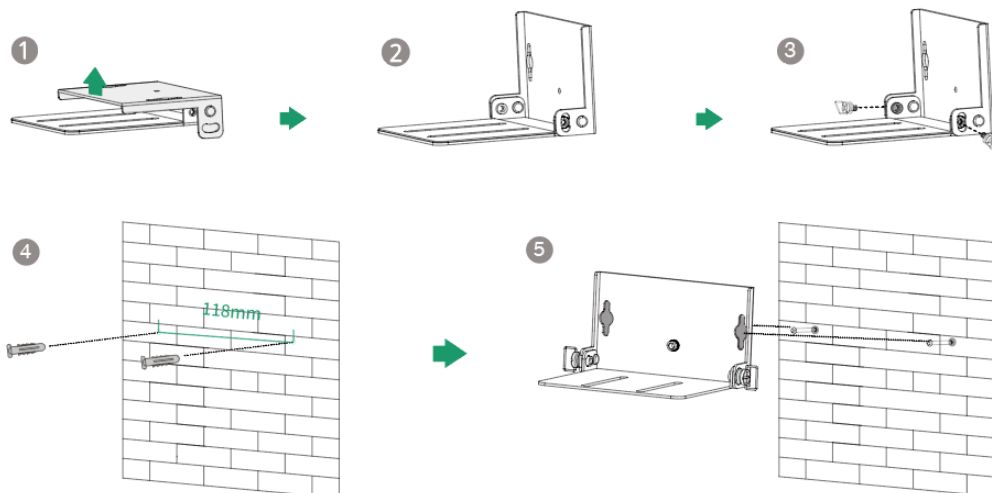

Embedded installation is prohibited (For example: inside the wall, enclosed space).

2. Install mounting bracket

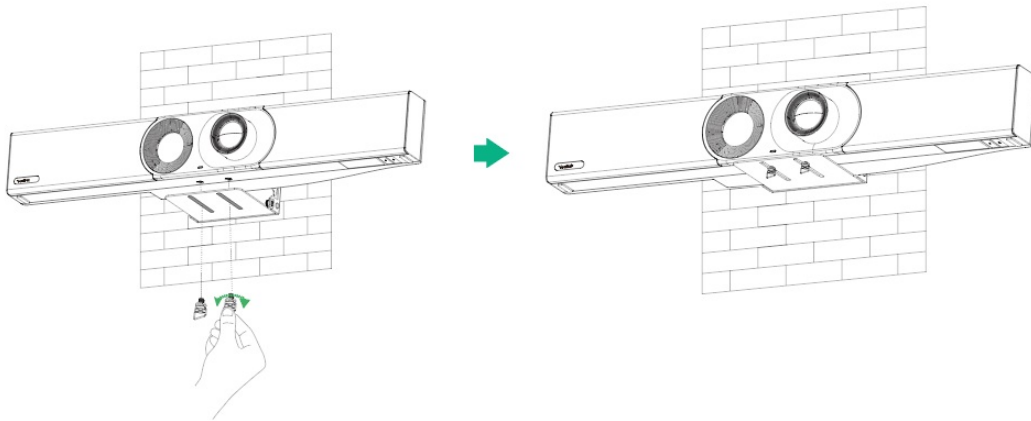

Step 4: Expansion Screws: $\phi 6 * 30$ mm. Hole depth: 6 mm, Hole diameter: 30 mm.

Step 5: Screws: 4*30 FAHOZN3+ (+)

3. Mount it to bracket

Screws: 1/4" -20 UNC

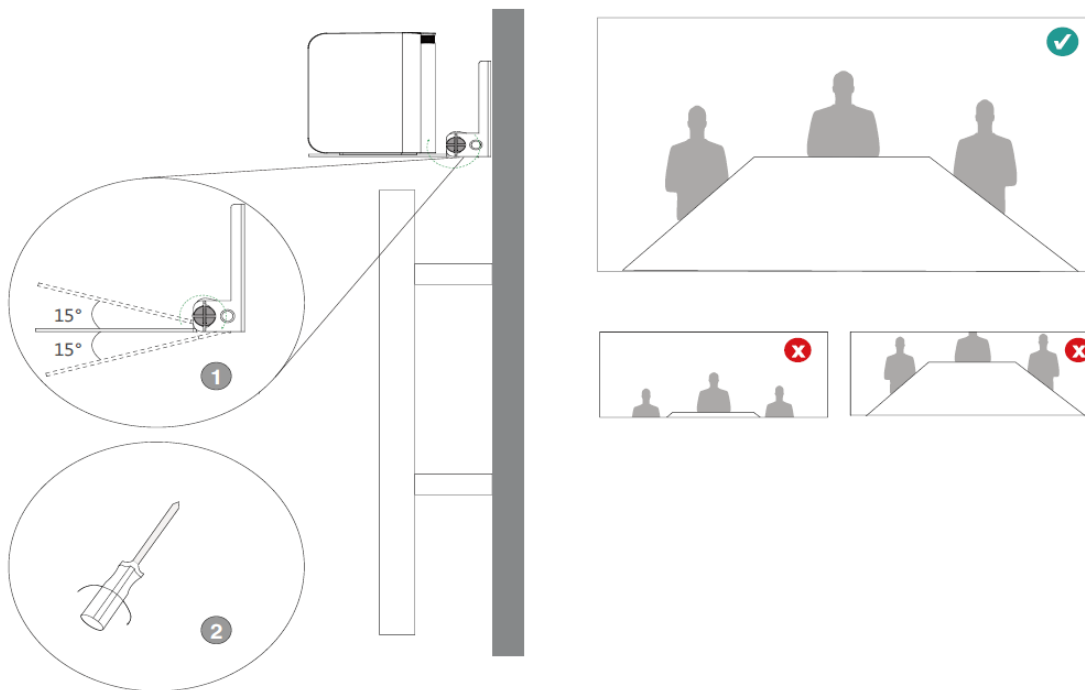

Mount it on TV stand cart platform

Put it on a desk

Adjust Camera Tilt

Connect/Pair MeetingBar A30

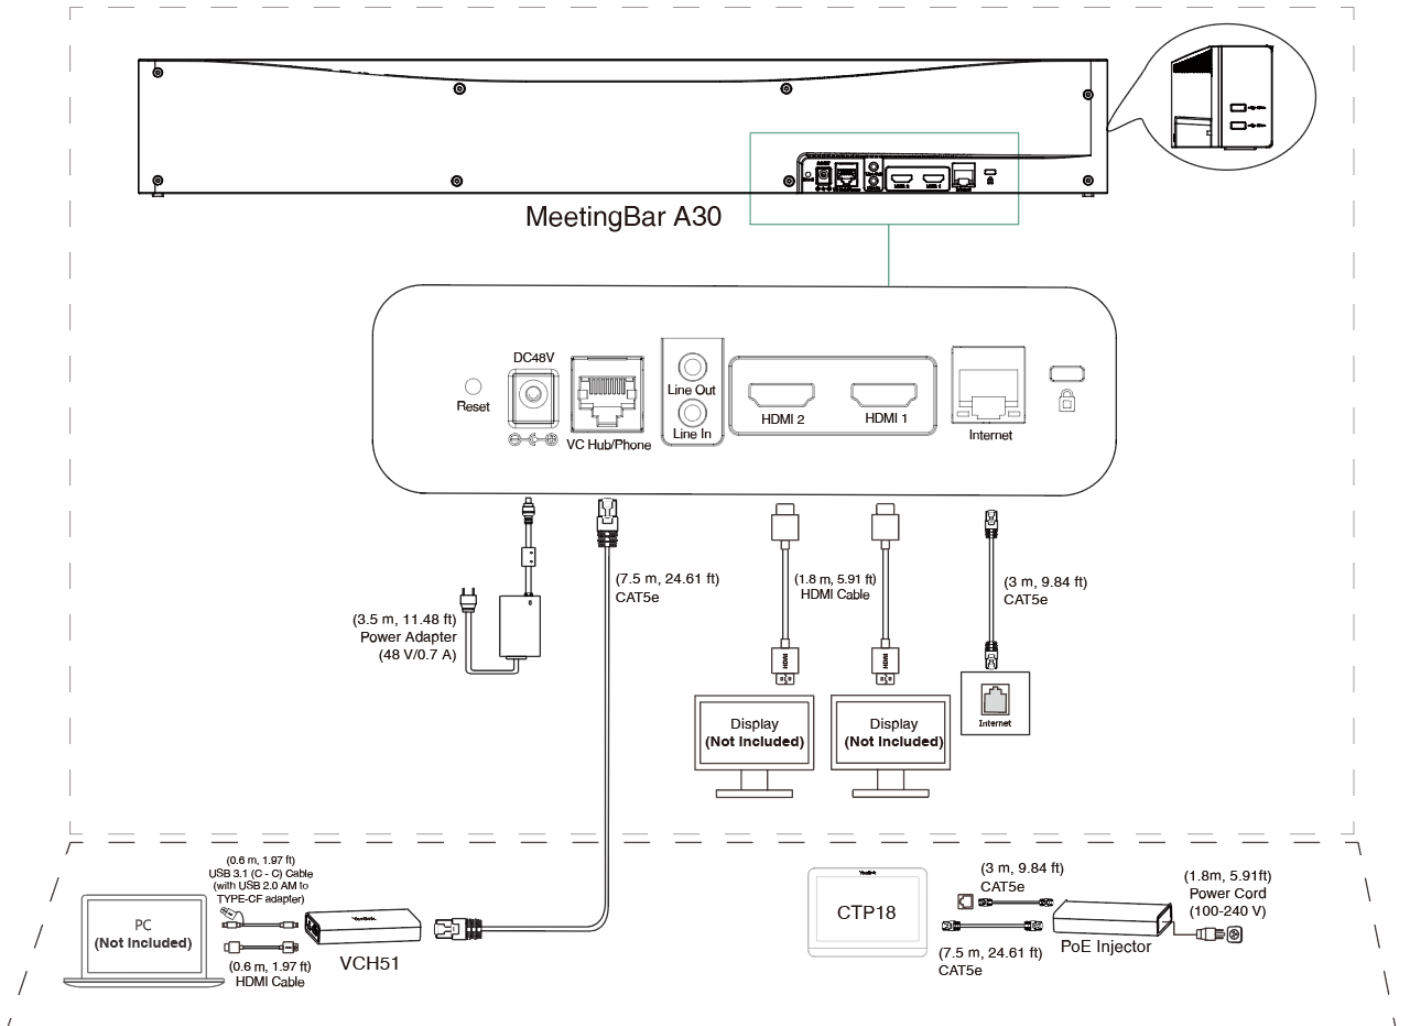

For a better pairing experience, we recommend starting the MeetingBar A30 first and then the CTP18. The MeetingBar A30 and CTP18 must be on the same LAN or connected to the same Wi-Fi before pairing and completing the setup.

You can power the CTP18 through PoE, as shown in the figure below.

After the deployment and connection are successful, please refer to [Quick Setup](#) to complete the setup wizard, and refer to [Quick Usage](#) to learn about getting started quickly.

NOTE

If you only use one display, please connect to HDMI 1 port. The functions of the VC hub/phone port and the VC Hub/ Internet port are different, and please pay attention to the connection method when using.

NOTE

Not included accessories requirements:

- Display: Resolution of 1080p or higher and with an HDMI port.
- PC: Equipped with HDMI or USB-C (support DP protocol) Port.

Supported Accessories

For more information, please refer to [Teams Room Accessories Compatibility Lists](#).

FAQ

Is the A10/A20/A30 unable to obtain the network, or is the network connection abnormal?
