

HPE Aruba Networking 570EX Series Hazardous Location Access Points

HPE Aruba Networking AP-577EX (RW) Dual Radio 2x2/4x4 Wi-Fi 6 Internal Directional HazLoc AP (R4W38A)

What's new

- Class 1 Division 2 and ATEX Zone 2 certified outdoor Wi-Fi 6 access points provide up to 2.69 Gbps maximum aggregate data rate.
- Purpose built for hazardous locations and to survive in some of the harshest outdoor environments and extreme temperatures (-

Overview

HPE Aruba Networking 570EX Series Hazardous Location Access Points provide high-performance wireless connectivity for outdoor hazardous locations like oil fields and rigs, mining facilities, and environments with explosive atmospheres and vapors that require Class 1 Division 2 or ATEX Zone 2 requirements. With Wi-Fi 6 capabilities, Bluetooth 5 and 802.15.4/Zigbee radios, and maximum aggregate data rate of 2.69 Gbps, the 570EX Series delivers speed and reliability needed to bring Wi-Fi to hazardous locations.

40 °C to +65 °C).

- Provides policy enforcement for wireless traffic through Dynamic Segmentation.
- IoT-ready with a built-in Bluetooth 5 [1] and 802.15.4 radio that supports Zigbee.
- Client and RF optimization to match clients with the best available access point and reduce coverage gaps.
- Dynamic Segmentation and policy enforcement firewalls automatically enforces consistent policies across networks, keeping users and devices secure.

These ruggedized outdoor APs are purpose-built for hazardous locations and can be quickly deployed using zero touch provisioning. HPE Aruba Networking Central provides a single pane of glass for overseeing wired and wireless LANs, WANs, and VPNs. AI-powered analytics, end-to-end orchestration and automation, and advanced security features are built natively into the solution. HPE Aruba Networking 570EX Series Hazardous Location Access Points include a limited lifetime warranty.

Features

Ruggedized Outdoor Wi-Fi 6

HPE Aruba Networking 570EX Series Hazardous Location Access Points provide Class 1 Division 2 and ATEX Zone 2 certification to operate in hazardous locations and provide up to 2.69 Gbps combined aggregate data rate. It provides high-performance wireless connectivity for outdoor hazardous locations.

Supports the Wi-Fi 6 standard, including features such as orthogonal frequency-division multiple access (OFDMA), bi-directional Multi-User MIMO (MU-MIMO), and Target Wait Time (TWT).

Enhanced wireless experience with HPE Aruba Networking ClientMatch technology removes sticky client issues by steering a client to the Access Point where it receives the best radio signal.

Deploy In Hazardous Locations

HPE Aruba Networking 570EX Series Hazardous Location Access Points are purpose-built to survive in some of the harshest outdoor hazardous locations and can withstand extreme temperatures, persistent moisture and precipitation, and are fully sealed to keep out airborne contaminants.

Weatherproof and temperature hardened, this series can handle temperatures ranging from -40 °C to +65 °C, including full sun deployments.

Class 1 Division 2 and ATEX Zone 2 certified for the most extreme indoor and outdoor areas with ignitable concentrations of flammable gases, vapors, or liquids.

IoT Ready

HPE Aruba Networking 570EX Series Hazardous Location Access Points can serve as IoT platforms that bolster network security and provide coverage for a range of IoT devices without the need for network overlays.

Supports Bluetooth 5 and Zigbee wireless protocols through an integrated IoT radio, and third-party expansion with an integrated USB port.

Target Wake Time (TWT) improves battery life of IoT devices.

HPE Aruba Networking Central Client Insights uses deep packet inspection to provide additional context and behavioral information that help verify devices are receiving proper policy enforcement and continuously monitor for rogue devices.

Enhanced Security

HPE Aruba Networking 570EX Series Hazardous Location Access Points offer enhanced security with Dynamic Segmentation to remove time-consuming and error-prone task of managing complex and static VLANs, ACLs, and subnets by dynamically assigning policies and keeping traffic protected and separated.

Offers stronger encryption and authentication with WPA3, protected credentials/keys storage for guest access with Enhanced Open, and user and IoT access policy enforcement firewalls.

Simplifies policy enforcement by using the Policy Enforcement Firewall (PEF) to encapsulate all traffic from the Access Point to the gateway (or mobility

controller) for end-to-end encryption and inspection.

For enhanced device assurance, HPE Aruba Networking Access Points include an installed Trusted Platform Module (TPM) for protected storage of credentials and keys, and boot code.

Technical specifications

HPE Aruba Networking AP-577EX (RW) Dual Radio 2x2/4x4 Wi-Fi 6 Internal Directional HazLoc AP

Product Number	R4W38A
Differentiator	Available everywhere except, US, Israel, Egypt and Japan
Certifications	CB Scheme Safety, cTUVus UL2043 plenum rating Wi-Fi Alliance certified 802.11a/b/g/n/ Wi-Fi CERTIFIED™ 6 (802.11ax) Wi-Fi CERTIFIED™ ac (with Wave 2 features) Passpoint® (Release 2) with HPE Aruba Networking Operating System and Instant
Regulatory	FCC/ISED CE Marked RED Directive 2014/53/EU EMC Directive 2014/30/EU Low Voltage Directive 2014/35/EU IEC/EN/UL 62368-1 EN 60601-1-1, EN60601-1-2
Wi-Fi antenna	AP-575EX models: Built-in omni-directional antennas: 5 GHz (4.6 dBi), 2.4 GHz (4.0 dBi) AP-577EX models: Built-in 90°H x 90°V directional antennas: 5 GHz (6.3 dBi), 2.4 GHz (6.4 dBi)
Mounting	Optional mounting kits: AP-OUT-MNT-V1A: Outdoor Pole/Wall Long Mount Kit AP-270-MNT-V2: Outdoor Pole/Wall Short Mount Kit AP-270-MNT-H1: Outdoor AP Hanging or Tilt Install Mount Kit AP-270-MNT-H2: Outdoor Flush Wall or Ceiling Mount AP-270-MNT-H3: Outdoor AP Hanging or Dual-Tilt Install Mount Kit
Power consumption	Maximum (worst-case) power consumption: PoE powered (dual ports): 32.0W PoE powered (single port, full function): 26.1W Maximum (worst-case) power consumption in idle mode: 14.0W (single PoE) or 16.0W (dual PoE) Maximum (worst-case) power consumption in deep-sleep mode: 2.9W (single PoE) or 3.9W (dual PoE)
Radio coverage	AP type: Outdoor Hardened, Wi-Fi 6 dual radio, 5 GHz 4x4 MIMO and 2.4 GHz 2x2 MIMO Software-configurable dual radio supports 5 GHz (Radio 0) and 2.4 GHz (Radio 1)
Warranty	Limited lifetime warranty. Visit Product Warranty for warranty and support information included with your product purchase.
Product dimensions (metric)	13 x 23 x 22 cm (H x W x D) Not including mounting bracket
Weight	2.1 kg

HPE Aruba Networking Services

HPE Aruba Networking services simplify and accelerate the network technology lifecycle, enabling your network to scale with better predictability and cost-effectiveness. Whether you operate your own network and need to improve your IT efficiencies, or you want to offload some of the burden, we have the services you need to reach your goals.

Learn more about what HPE Services - Aruba Networking has to offer at: arubanetworks.com/services/

Support Services

Our support portfolio provides the essential support elements as well as proactive and preventive features to help you improve your team's productivity and get the most from your network. Our support customers benefit from faster issue resolution, simplified operations and efficiencies, and reduced network issues.

Professional Services

With deep intellectual capital and purpose-built tools, our team delivers a range of standard and custom professional services designed to accelerate your value from HPE Aruba Networking technology.

Project based services include: Annual subscription services include:

- Planning, audit, and assessment
- Architecture review and design
- Deployment, migration, and knowledge transfer
- Network optimization
- Intelligent Operations
- Customer Experience Management

Our [Education Services](#) allow your team to come up to speed quickly.

HPE GreenLake for Networking

Our NaaS solution, HPE Aruba Networking Managed Connectivity services, part of the HPE GreenLake services family, simplifies network operations, accelerates equipment handling, and increases the value of your HPE Aruba Networking network. If you need expert guidance and automation-based operations for your team, please explore the NaaS approach from HPE Aruba Networking [here](#).
